B.Tech in Electric Engineering
SVERI's College of Engineering,Pandharpur

2019 – 2023

74.78%

HSC
New English School & Jr. Collage, Ghoti

2018 – 2019

62.92%

SSC
New English School, Ghoti

2016 – 2017

83.60%

📁 PROJECTS

Coding competition live website ↗
Technology: React-js, Node-js, Mongodb
- Make coding competition full featured website in frontend react-js and for backend node-js (Self hosted)

Quiz Secure web application
Django REST framework, React JS, Redux-Saga, JavaScript, HTML5, CSS Present
Leading the development of Quiz Secure, applying cutting-edge technologies for robust assessment.
• Engineered a secure platform for evaluating technical and behavioral skills
• Integrated Redux Saga with React for efficient asynchronous state management.
• Implemented features to detect unauthorized copying within quiz submissions.

Webtechdevelopers official website ↗
Technology: Django, Django CMS, Javascript, HTML5, CSS
- This is the company official website. For making this website I used Python Django with Django CMS and MySQL for the database.

Work with content management website
Technology: Django, Django CMS, Django machina, Javascript, HTML5, CSS
- In this project, I worked with Django CMS to create the content management system
- For implementing the support forum we used Django Machina Framework
- Also for the design use HTML5, CSS, and JavaScript

Work with WebRTC
Made the video calling application using WebRTC
Technology: Node JS, React JS, Janus media server
- Deploy Janus media server
- Write backend using Janode with Node JS
- Write frontend in React JS to interact with the user

Implementation of freescout with custom features ↗
Technology: PHP Laravel, Mysql, Javascript
Freescout basically provides the helpdesk solution for communicating with the customer.

In this project, I implemented the freescout open-source project with additional features.

Trainee

webtechdevelopers.com ⬈

April 2023 – present | Pune

I am currently working as full stack developer at webtechdevelopers pvt. Ltd.

SKILLS

Python

C

C++

Java

Javascript

PHP

MySql

HTML-5

CSS-3

Web Development
- Advance Django
- React JS
- Node JS
- Laravel

Linux

INTERESTS

Meditation | Listening Music

Codding

LANGUAGES

Marathi | Hindi | English

Additional Features:

- Automated Email Translation:
  - Enable automatic translation of regional language emails to English and vice versa for customer communication
- Email Thread:
  - Automatically append the original email thread when replying for better context and conversation overview.
- Product Information Retrieval:
  - Automate product details retrieval for customer purchases from WordPress.
